## Letter of appreciation

During its visit to the Republic of Moldova within from June 22 through July 10, 2009 the JICA mission carried out a study on behalf of the Japanese Government. We had the pleasure to be assisted in our work by a group of interpreters of the Association of Professional Translators of Moldova (APT Moldova). The successful activity of the mission was to a great extent possible due to the high professionalism and qualification of the APT members, their dedication and teamwork spirit.

All mission members were impressed with the quick and effective arrangement of the work program, highest quality of interpretation and translation, as well as the ability to assist the mission in a number of other related tasks, such as data collection, liaison activities and facilitation of good transportation and accommodation opportunities,

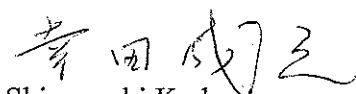

It was a great pleasure for mission members to see that the ATP interpreters are also good guides and could combine their professional interpretation skills with excellent knowledge of the history of the Republic and its sightseeing sites. This made our field trips around the country exciting.

While translators had to work under great pressure and to cope with a wide diversity of requests of the mission, they worked smoothly and harmoniously together, which allowed the mission to complete its data collection task successfully.

And last, but not least, the mission members have highly appreciated the gentle and amiable attention and care of the translators, their readiness to assist.

We recommend the APT Moldova as a highly reliable and trustworthy organization, capable to provide good services the most complicated assignments.

Sincerely,

Shigeyoshi Koda
